### WORK HISTORY

#### NISANCI SOFTWARE (2020–2025)

CEO

I provided special software support to individuals and institutions with my sole proprietorship company established in 2020.

[DETAIL](#)

#### LONGOSPHERE (2021–2022)

CUSTOMER REPRESENTATIVE

- I worked exclusively in the sales process and customer representation in this hotel and accommodation company.

#### NAYU (2020–2021)

RESERVATION SYSTEM

- I took part in the working structure and management of the hotel's reservation program

#### PİZZALAZZA (2024–2025)

SALE PROCESS

- I worked in the kitchen department. Specifically, I ensured the control of programs in the sales process

#### YEBEA PEREKANDE GIDA SAN. TİC. LTD. ŞTİ. (2025–)

CEO

- I took part in the newly established company that I wanted to develop as an online catering company, but the project is still pending due to lack of budget.

# PROJECT

---

## PORTFOLIO WEBSITE

### Portfolio Website | 2025

[URL](#)

- In this project I realized a web site design of my own. This site will make you feel like you are working on a desktop and you will recognize me on a desktop of your own.

### Nisanci Software Website

[URL](#)

- I made the software and design of the nisanci software website, which belongs to me. In this process, customers can actively communicate through the form and at the same time create their orders.
- 

## WEB DEVELOPMENT

### Rap Artist's Website

[URL](#)

- I realized the design and software of the website of an artist interested in rap.

### Restaurant Website

[URL](#)

- I provided the web design and coding of the restaurant company. In this process, the user can easily see the menu on the restaurant's website and even download pdf with QR menu support. In addition, the customer can easily order from the website.

### Open Source Software

[URL](#)

- I continue to support open source software and its developers

---

**WEB  
DEVELOPMENT**

**Open Source Software**

URL

- I had the opportunity to study and work with open source software

**Tamircim Website**

URL

- I provided the design and software of the website of a company engaged in repair and renovation

**Taxi Website**

URL

- I developed a website with an easy-to-use interface for a taxi driver. The aim of this project is to provide the fastest and secure communication between the taxi driver and the customer in the fastest way.

---
